ADJUSTABLE LOUVRES LET YOU AVOID SUN GLARE WITHOUT BLOCKING OUT THE LIGHT

LIVEN UP YOUR LIVING ROOM

Curl up in a bright sunny spot with a good book. Or shut the world out and snuggle up with your family on a cold winter's night. Whatever the time of day or year, S:CRAFT shutters offer a practical solution to light, privacy and temperature control.

The clean, crisp lines of shutters open up any space to create a light and airy feel. Or simply close the louvres to help make your room cosy. Choose from a range of styles in a wide range of colours and materials.

And S:CRAFT shutters aren't just for windows. Use them as bi-fold doors on a track system to partition large open-plan rooms. Solid panels are a perfect choice for a more rustic and traditional look. They provide privacy when you want it most.

Bay windows dressed with shutters make a stunning style statement

Adjustable louvres provide shade in summer and insulation in winter. Have them open or closed in just the right places to get your lighting just the way you want. Our robust manufacturing process uses premium materials to create incredibly strong shutters that won't fade, bow or warp with extreme temperature changes that conservatories can face. You can easily dress your windows and French doors and we also have a solution for ceilings with our Fiji range, or PURE Cell™ Honeycomb blinds.

S:CRAFT shutters provide everything you need for the bathroom. Opting for split level louvres means you can operate the top and bottom sections independently. So, you can keep the bottom closed to protect your privacy, while keeping the top open to let light in.
